

The Turrumurra 27

Double Storey

The Turrumurra Collection proves that smaller lots don't mean compromising on style or space.

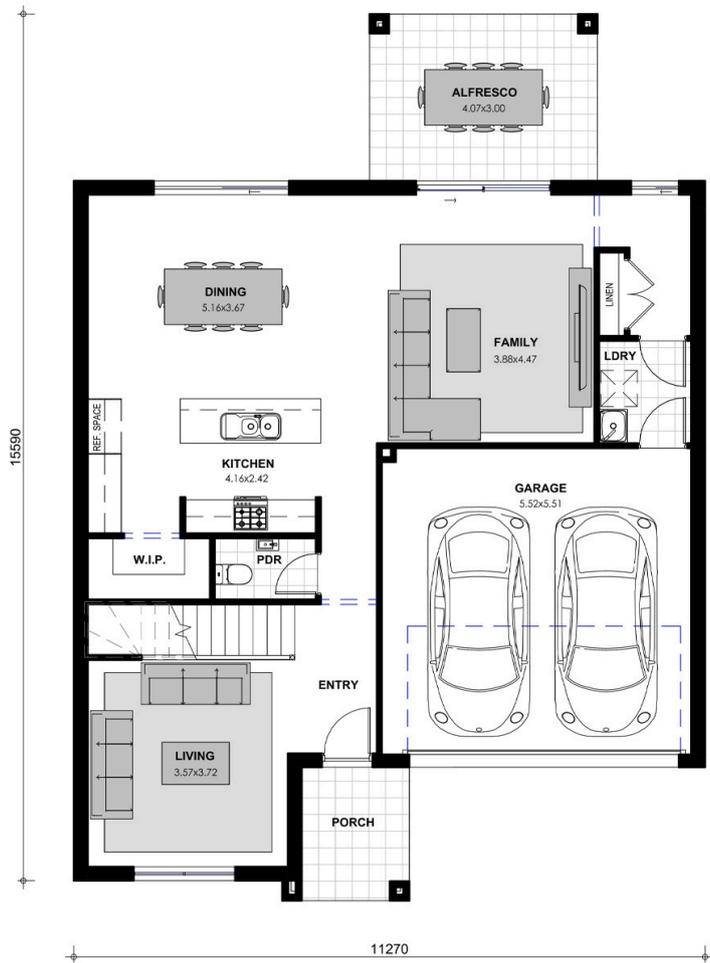

The open-plan kitchen, dining, and family area creates a seamless hub for entertaining friends, enjoying family dinners, or relaxing together.

Upstairs, four bedrooms, a main bathroom, an ensuite, and a rumpus room provide private retreats for children and adults alike, balancing practical family living with modern elegance.

Thoughtfully designed for compact lot living, the Turrumurra 27 offers a home that is functional, stylish, and perfectly suited to modern family life.
